HARMONY MASSAGE

The aroma massage treatment is performed with calm and slow motions by professional massage therapists. Its primary purpose is to relax the muscles, as a result your body gets relaxed and your soul gets invigorated. It is perfect for physical and mental stress or as a first massage experience and we highly recommend it both for couples as well as individuals.

During the 20-minute aroma massage, you decide whether the masseuse will only massage the neck or back, or perhaps treat the tired lower limbs (legs).

During the 45-minute aroma massage, the therapist massages the entire body, excluding feet and head.
